

Summary

Software Engineer with experience in full-stack development, backend systems, and machine learning. Skilled in building scalable web applications using React, Node.js, Flask, and working with SQL/NoSQL databases. Strong interest in system design, distributed systems fundamentals, and applied machine learning.

Technical Skills

Programming Languages: C, C++, Python, JavaScript, PHP
Frontend: React.js, HTML, CSS, Tailwind CSS, Bootstrap
Backend: Node.js, Flask, REST APIs
Databases: MySQL, MongoDB
Tools & Platforms: Git, GitHub, Linux, Vercel
Machine Learning: NLP, Deep Learning, LSTM, MLP

Experience

- Official Delegate (OD) — Castaway on the Moon (COTM)**2020
- Led platform promotion initiatives and managed online community engagement. Improved digital outreach and user interaction through structured communication strategies.
- Learnathon Participant**2023
- Completed structured training in algorithms, data structures, and problem-solving. Strengthened programming fundamentals and coding efficiency.

Projects

- ShopMate E-Commerce Platform (Full Stack)**
- Built a full-stack e-commerce platform using React.js, Flask, and REST APIs
 - Implemented authentication, admin dashboard, cart, wishlist, and order management
 - Designed scalable backend architecture with MySQL database integration
 - Deployed frontend using Vercel with responsive UI across devices
- GitHub: link Live: link
- Sentiment Analysis System (NLP)**
- Developed sentiment classification models using LSTM, MLP, and hybrid deep learning architectures
 - Built complete NLP pipeline including preprocessing, tokenization, padding, and feature engineering
 - Improved model accuracy through hyperparameter tuning and architecture optimization
 - Worked with IMDB dataset for binary classification task
- GitHub: link
- 3D Point Cloud Processing Research**
- Implemented 3D point cloud preprocessing and visualization techniques
 - Performed noise filtering, spatial transformation, and data enhancement
 - Explored computational geometry and spatial data structures

Education

- B.Sc. in Computer Science & Engineering (CSE)**
- North South University2021 – 2026

Areas of Interest

Software Engineering, System Design, Distributed Systems, Machine Learning, Backend Engineering, Competitive Programming, Management Trainee Officer, Human Resources

Languages

Bangla (Native), English (Professional)
